
(a) Environmental response
Population in $|1\rangle_{env}$
Time t
Stripe
Spot
Labyrinth
(b) Local entanglement
Mean local negativity
Lower bound
Upper bound
Time t
(c) Classical persistence
$P_B(t)/P_B(t_*)$
t_*
Time t
(d) Evolution of spatial configurations
$t=0$
$t=40$
$t=150$
$t=t_*$
$t=1200$
